FIRST GAC APPROVED  
INTERNATIONAL MANAGEMENT SYSTEMS  
CERTIFICATION BODY ACROSS GCC

## Introduction

Atyab International Services (AIS) is the first ever International Conformity Assessment body from Sultanate of Oman, providing services pertaining to Testing, Inspection and Certification (TIC) across various industries. AIS is a market leader in food safety, quality standards, Environment, Health and Safety, Security, R&D and certification by providing technical know-how to organizations around the globe.

AIS was established in 2010 as a Testing, Inspection & Training organization providing its services across GCC, having its Head Quarters based in Muscat, Sultanate of Oman. Initially, in 2008 AIS was started as a technical & quality department of Oman Flour Mills for meeting internal requirements. Later, it began to provide technical support to new businesses, concepts, projects of various organizations within the food & allied industry and eventually developed into an independent TIC facility.

“Atyab International Services” is a semi-government entity and a proud affiliate of the public listed company Oman Flour Mills (OFM). Since 1977, OFM is the first and the largest public limited company within the Sultanate of Oman in the food manufacturing sector with 51% ownership by Oman Food Investment Holding Company (OFIC).

### The key services offered by Atyab International Services are:

- AIS Testing & Inspection
- AIS Certification
- AIS Academy
- AIS HSE
  - IPMS- Integrated Pest Management Services
- AIS Trade Services

**AIS Laboratories** are accredited according to the international standards of ISO 17025, ensuring the highest level of accuracy is maintained through latest and modern testing instruments and qualified personnel to provide unmatched quality for all types of testing services provided by AIS Testing.

**AIS Certification** division is accredited to ISO 17021 as an International Certification Body.

**AIS Academy** is the training division that helps people and organizations be ready to drive business to levels of excellence. AIS Academy conducts soft skills training programs on a national level by promoting and empowering local resources. AIS provides training programs for individuals or groups and offers Management Systems Training programs as well as Customized and Remote Training programs. AIS Academy is affiliated with multiple international organizations to provide professional training programs through public, inhouse or online modes.

**AIS HSE** division caters to address immediate environmental, social and health governance requirements to the development of strategic initiatives such as Integrated Pest Management Systems that provides high quality pest management solutions across the Sultanate of Oman.

**AIS Trade Services** division helps organizations improve the compliance of imports with safety standards, protect import duty revenues, and secure international supply chain as well as act as an authorized distributor for multiple international and national laboratory and pest control equipment.

## AIS Testing & Inspection

AIS Testing is the laboratory division of Atyab International Services. Better known to many as Atyab Foodtech LLC, AIS Laboratories specializes in Chemical and Microbiological testing services across the Middle East. AIS Testing has a state of the art facility for testing of food, water, cosmetic, chemicals and environmental samples.

AIS Laboratories are internationally accredited and DGSM-MOC approved, catering to almost all institutions, industries and leading brands across the Middle East and CIS regions.
